The NASPE Advantage

ENGAGE: Networking

Corporate members have year-round opportunities to engage with NASPE state members through face-to-face meetings and conferences, committee participation, and issue-oriented networking forums.

COLLABORATE: Corporate Membership Council

Corporate members in good standing may participate on the Corporate Membership Council. Council members work together to utilize their experience and resources to collaborate on association projects and initiatives such as surveys, issue briefs, and webinars. The Council also receives regular association updates and also will be asked for guidance regarding association strategies.

CONSULT: Research and Information

NASPE members value association research initiatives to identify benchmarks and trends in state government human resource management. From annual surveys on the state government workforce (demographics, salary, etc.) to HR service delivery structures to whitepapers on current issues, NASPE corporate members have access to the latest information.

DISCOVER: Publications

Regularly-published newsletters keep the membership connected with national public-sector HR issues and association news. Each week, the NASPE Executive includes national headlines on state government HR. The quarterly, Inside NASPE, features HR trends and association updates. Corporate members may contribute to Inside NASPE.
